美国标签 a2 Platinum Premium 婴配奶粉召回
a2 Platinum Premium infant formula USA label product recall

The a2 Milk Company（以下简称“a2MC”）一贯将婴幼儿的安全与健康作为最高优先和首要任务。近期 a2MC 在美国启动了一次召回。此前该公司根据新西兰初级产业部发布的新指南，对相关产品进行了额外检测。检测结果显示有三个批次的美国标签 a2 Platinum Premium 0-12 个月婴儿配方奶粉（以下简称“该产品”）产品中检出了蜡样芽孢杆菌呕吐毒素，a2MC 因此决定启动自愿召回。

Product Name 产品名称	**Packaging Format 包装规格**	**Batch Number 批号**	**Expiration Date 保质期**
a2 Platinum Premium infant formula 0-12 months Milk-based powder with Iron a2 Platinum Premium 0-12 个月含铁乳基婴儿配方奶粉	31.7oz /罐	2210269454	7/15/2026
	31.7oz /罐	2210324609	1/21/2027
	31.7oz /罐	2210321712	1/15/2027

这三批产品的总数量为 63,078 件，其中估计有 16,428 件已出售给消费者。该产品于 2025 年生产，仅限于美国本土销售，从未进入中国。产品进口权已于 2025 年 12 月 31 日到期，该产品在召回启动前已经停产并停止销售。此次美国召回仅涉及美国标签产品，其配方及相关成分与在澳大利亚、新西兰、韩国、越南以及通过跨境渠道销往中国的英文标签 a2 紫白金婴幼儿配方奶粉不同。因此，本次美国召回对中国市场和中国消费者没有影响。

The total number of units in these 3 batches is 63,078 units, of which an estimated 16,428 units have been sold to consumers. The Product was manufactured in 2025 and intended solely for sale within the United States and never entered China. The Product’s importation right expired on December 31, 2025, and production and sales of the Product had already ceased prior to the initiation of the recall. This US recall relates only to the USA label product, which has a different formulation and relevant ingredient to the English label a2 Platinum infant formula sold in Australia, New Zealand, South Korea, Vietnam and through cross border channels into China. Therefore, this US recall has no impact on the Chinese market or Chinese consumers.
